# "Still In The Dark"

Visit "[Still In The Dark](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I am empty, I am done  
There is nothing wrong  
Just a dry spell of the heart  
You have been and you have gone  
Like my favorite song  
I caught the end but missed the start  
You escaped me one more time  
Now my love feels like a crime  
You ripped my world apart  
And leave me in the dark  
[Chorus]  
And I know there's another side that you never show  
that I gotta find,  
And it's not all in my mind.  
And I'm here every night and day,  
I could be the one your love could save,  
Baby you left your mark but I'm still in the dark  
I know how much you need your space

It's a lonely place to find what you've been looking for  
You strayed off the beaten path  
And making your way back is harder than it was before  
Somebody got the best of you and left behind the rest  
of you  
Who used up your heart and kept you in the dark  
[Chorus]  
Let me get this straight  
The reason why I wait  
I know you've been through so much pain  
Baby do I wait in vain  
If I could she'd more light on you  
Tell you what was right for you  
Your beauty blinds me sure enough  
But my heart knows when it's love  
[Chorus]  
I am empty, I am done.
