Why did you leave  
I know you're jaded baby  
Don't feel deceived  
One day you'll see  
I'll give you time before  
You come back to me  
My uncommon sense  
Tells me to leave it alone  
And let your soul be set free  
I know what I want  
So tell me how do I get it  
Let me take you to  
The place you wanna be

[Chorus]

Got me waiting on a sign, been waiting on a sign, got  
me waiting on a sign yeah yeah  
You're all I ever wanted, got me waiting on a sign  
Can't take it now  
You know desire's got us burning somehow

You're upside down  
The bitter silence got you all turned around  
Well maybe I'm crazy but  
You don't understand that  
I'm a fool who believes  
That one day you'll hear me baby  
One day you'll see that I can take you  
To the place you wanna be

[Chorus]

I see you running for the other side  
Don't try to tell me that you're running away  
Just keep moving to the morning light and  
The darkness will fade to the day  
It's all right

[Chorus]
