Visit "[Beach Deman](#)" on MotoLyrics.com

here's where I'll stay and
here's where I'll go
nothing to do and
nothing to show

here's where I'll stay
that's where I'll go
we started to fast and
now we finish to slow

everything's right and
everything's wrong
everything's good
while we're hearing this song

everything's right and
everything's wrong
everything's wrong
everything's so wrong (lost?)

I'm going no where
going no where
going no where

I'm going no where
going no where
going no where

I'm going no where
going no where
going no where

I'm going no where
going no where
going no where
