"Beat Me Up"

Memories, they're my reason why
She takes it all
And slowly starts to cry

Do you really think I easily bruise?
I asked what about the pain in me tomorrow
I just want to spend some time with you
Some time with you, some time with you
Or you could beat me up, beat me up
Or you could beat me up, beat me up
Or you could beat me up

You're all the enemy
That's my reason why
I numb the pain
It makes me want to die

Do you really think I easily bruise?
Or do you ever have a smoke that I could borrow?
I just want to spend some time with you
Some time with you, some time with you
Or you could beat me up, beat me up
Or you could beat me up, beat me up
Or you could beat me up, beat me up
Or you could beat me up, beat me up
Or you could beat me up
