you're such a bug to me man
you're such a drag on everyone
you're such a burned out zombie
you always suck out all the fun

you're no fun
you're no fun
you're no fun
you're just dumb
you're no fun

you're always crashing parties

you're always crashing someones car
you're always crashing on your new girls couch
until she finds out who you are

you're no fun
you're no fun
you're no fun
you're just dumb
you're no fun
