Everything is my fault  
Everything is my fault  
Everything is my fault  
Everything is my fault

Thing is my fault  
Thing is my fault  
Thing is my fault

I lunged at it all  
Evil thought [?]  
Then laughed it off  
In the house where I grew up  
Santa burned the trash [?]  
This is all [?]

Every little thing is my fault  
Every little thing is my fault  
Everything is my fault  
Everything is my fault  
Everything is my fault  
Everything is my fault  
Everything is my fault
