I was fucked from the start
So would you like to set me free?
Would you set me free?

Do whoever you want
In the light of day
I can finally sleep
I can finally sleep

But I can't dream
I can't dream
I can't dream
I can't dream

In the light of day
I can finally sleep
I can finally sleep

But I can't dream
I can't dream
I can't dream
I can't dream

I don't wanna remember anything
Don't wanna remember anything
I don't wanna remember anything
Don't wanna remember anything

But I can't dream
I can't dream
I can't dream
I can't dream

I don't wanna remember anything
Don't wanna remember anything
I don't wanna remember anything
Don't wanna remember anything
