[Master P]

Well, it's like this player.  
You know, it's either we all strapped.  
Cause if we ain't somebody goin die.  
We roll on this side and they roll on our side.  
It's like a never ending game.  
And whoever left, that's who wins.  
So check it out player.

[Mac]

Everybody's going trigger happy, wanting to blast  
I remember we used to play ball and cut class  
Now my niggas sport bulletproofs, clutching their gat  
We all headed for hell, my grandmama told me that  
Even now I'm going shell shocked, wanting to shoot  
I was a little cool nigga to tell you the truth  
They put the gats in the ghetto, them rotten  
motherfuckers  
Wanted us to get frusterated and kill one another  
Now we all beefing and it won't stop till we all sleeping  
Everybody's got to die but why we point the finger at  
the white man  
Nigga it's us killing us late at night man  
So now I ask my God, is this the way of the world or just  
the hood niggas  
My auntie said, Mac what happend to the good niggas  
Am I a fool cause my heart be true  
And I give a fuck about you and you  
But they don't hear me

[Ms. Peaches]

When them niggas ride on you  
You turn around and ride on me  
Tell me what you gonna do, it's genocide  
When them niggas ride on you  
You turn around and ride on me  
Tell me what you gonna do, it's genocide

[Mac]

Flowers in the soap saying I felt pain  
Through the eyes of the youth I envision your gain

My nigga Eric was young when he was caught up in the  
drama  
Them niggas took his life right in front his baby mama  
Was that God or the devil, that shit is so deep  
It's hard to dig it with a shovel, now we on that other  
level  
That's the tale of the ghetto, never change with the  
name  
It's a constant war, nobody wins, everybody pains  
Everywhere they hating  
They got me sporting camoflaug when I'm misled,  
preparing on the armageddon  
And everybody to blame for the supplies  
To the vibes, little kids they caught up in the crossfires  
Is this the way of the world or just the hood niggas  
My auntie said, Mac what happend to the good niggas  
Am I a fool cause my heart be true  
And I gave a fuck about you and you  
But they don't hear me

[Ms. Peaches]

When them niggas ride on you  
You turn around and ride on me  
Tell me what you gonna do, it's genocide  
When them niggas ride on you  
You turn around and ride on me  
Tell me what you gonna do, it's genocide
