Mija I know we've been through a lot of hard times you  
know

And you always stood by my side

And I'm sorry I never told you

If I love you or whatever but

This song's for you

When I look into your eyes

It makes me feel real good

It's like mija now you wonder why

This crazy love will never die

We can find any ? Damn right you'll Still be forever  
mine

I'll wipe those lil tears from your eyes

Please don't cry with only you will stand beside me

When I was torzido you were the only one there for me

I thank you for your time and your love

Damn you mean so much to

And there's no other hyna in this world to take me away  
from you

This I know its true you're my love bird

And without you I'm through

So I wrote this song just to let you know what you mean  
to me

Me & you

You & me

Fulfilling each others fantasies

This will never die

I'll promise I'll stand beside you

Forever I love you baby

Forever mine

Oh you still don't believe me

Mija I told you I'll be there for you don't worry

I don't gotta have to... You know

I don't have to show it to you every single time

You know what I mean

But just know that I do love you baby

You know what I mean

At night I always look up to the stars you know what I'm  
sayin

There beautiful... But you know what there not as  
beautiful as  
You

Till death do us part thrill me with all of your charge  
You're my latin queen never leave you lonely  
You mean so much to me  
When we make love we make all the birds  
Forget the bad things only the good times we share  
Can make us happy  
Y mija tu sabes whenever you need me I'm here I'm not  
Like those other vatos who left you alone  
I won't disappear  
Tu eres mi mami, mi angel, mi amor  
Y tus besos bienen with sabor  
Baby don't think I'm only trying to waste your time  
Your nombre is on mente till the end of time  
Forever mine

So tell me whats on your mind now mija  
Now... you know I love you right?  
And like I said I'm sorry for not telling you before  
But I know you knew  
Know what I mean  
I know there's gonna be like a lot of ...  
A lot of trouble in our relationship  
But I promise you one thing  
No matter what I'll never let you down  
I love you  
to the end of time
