Oh, oh oh oh
I Think I'm in love again
Oh, oh oh
She gives me my medicine
And we were meant to be
She works at the dispensary
And every time I,
See her she gets me oh so high

Yo, I had e really bad day,
It was a downer
I walk into the place
Hopin' my girls behind the counter

When they buzz me in
I've got my fingers crossed
I smell kush
And I hear some weird music
Like Sugar Ross

I'm flabbergasted
When I entered the spot
'Cause I've seen my girl before
And she was never this hot

And I know I'm gonna spend a lot of time
Picking weed up today
She's got me singing like

Oh, oh oh oh
I Think I'm in love again
Oh, oh oh
She gives me my medicine
And we were meant to be
She works at the dispensary
And every time I,

See her she gets me oh so high

She's got a smile so healthy
Attitude mellow
No need to sell me
She had me at hello

With the little black dress on
Her skin just glows
Jamaican flag rings
On her index toes

When it comes to weed knowledge
She's kind of a diva
Well versed
In the new kind of sativa

I'm a believer
She's TCH to my mind
Every time I see her
I'll be screamin'

Oh, oh oh oh
I Think I'm in love again
Oh, oh oh

She gives me my medicine
And we were meant to be
She works at the dispensary
And every time I,
See her she gets me oh so high

Were could it be a better day?
To pick up and eight
Mmmmm, Oh

It gets me so high
Lookin' at your pretty face
And I wish you would say
You want to be mine

Ayo, she's so positive,
Always in a fun mood
Ass kinda' thick
She probably eats a lot of junk food

I ain't just some dude

I'm that one dude
You've been looking for
You ain't gotta look no more

We can get high
Lay around and cook some smores
To describe
You would need a good thesaurus

Cause it ain't enough words
That I've learned thus far
To tell you
How beautiful you are

Girl you got me like

Oh, oh oh oh
I Think I'm in love again
Oh, oh oh
She gives me my medicine
And we were meant to be
She works at the dispensary
And every time I,
See her she gets me oh so high

Girl, you look so good to me
That every time
I be in the dispensary
You got me going crazy

You look
So nice
I wanna eat you up
Like a bowl of rice
And I wouldn't think twice girl
