[Hook]

Yeah, we too loud
The police say we way to loud
And all the neighbors say we way to loud
That's why they trying to get my ass thrown out
But we don't turn it down, we just crank it up
Standing on the roof screaming we don't give a f*ck
We like this sh*t loud, we let it bump
So if you turn it down you gonna get f*cked up

[Verse 1]

Yo, I put my speakers to 11 and I set em and forget em'
F*ck the neighbors I ain't like em since the first time
that I met em'
And I think I upset em' when I first pulled up
In the U-Haul truck, with the vol-ume all up
That same night they seen me chillin' on my roof all
drunk
Urinin' in the chimney, Santa Clause forgive me
My whole team's straight loud and obnoxious
Cops is at the door at 4 tryin' to stop us
You'd think we was holding you hostage
Over-weight rock chicks, in the kitchen starting up
mosh pits
No Shake Weights, them hoes just break plates
Cooking like 8 steaks, looking like Kathy Bates
F*ck the pretty sh*t, we a bunch of idiots
The decibel level go-en make the whole city b*tch
I party like I'm filthy rich
And if I spend it all tonight I won't feel no guiltiness

[Hook]

[Verse 2]

(Prrr)
Suffering Succotash, Wax gotta bunch of cash
Now I'm the sucker ass, f*ckers in the upper class
Driving by me in a 350 Benz
I'd be in the the front yard in a drum circle with my
hippy friends
We coming one with the Earth

That marijuana nirvana man I've been grungy since
birth
All that money is worthless if you ain't gonna spend it
now
And you ain't said sh*t if you unless you said it loud
I live fast like the the freaking hare
I ain't die young yet but I think I'm getting there
Like up in the diction-air-e, by the word rowdy
You gonna see my picture there, chillin' proud-ly
Say it loud like a proud James Brown
Or the Price Is Right announcer when a member of the
crowd came down
He got that loud insane sound
If you feelin' like I'm feelin' sing it loud right now

[Hook]

[Verse 3]

If you rollin' down the street and you wylin' out to this
beat
And you got that sh*t on repeat immediately you
should (Turn it up)
If your significant other is b*tchin' cuz you're always
Listenin' to your heavy metal too loud (Turn it up)
If you're a musician and you listenin' to yo own sh*t
Be proud and play it loud b*tch (Turn it up)
If you're complainin' and screamin' about what I'm
Sayin' and meanin' then take this plate of my semen
And f*ckin' (Slurp it up)
