My baby don't call no more
Don't call no more
My baby don't call no more, don't call me no more
No she don't but I keep calling her
And my baby won't see me no more, won't see me no
more
No she won't, I keep seeing her, I keep seeing her, I
keep seeing her
Everywhere I go, I keep seeing her, I keep seeing her,
Everywhere I go

Real early in the morning, whenever I'm lonely
I pick my phone up and I start to dial your number
Might sound like a crazy stalker or something
But I can't let go of her
She was all so perfect, she was just my type
She's the one I searched for, searched for, all my life
Whoa I'm trying, trying to get her, back in my arms
Everything, under the sun, but my baby gone

My baby don't call no more
Don't call no more
My baby don't call no more, don't call me no more
No she don't but I keep calling her
And my baby won't see me no more, won't see me no
more
No she won't, I keep seeing her, I keep seeing her, I
keep seeing her
Everywhere I go, I keep seeing her, I keep seeing her,
Everywhere I go

She don't know the slightest what she does to me
Got me loosing sleep and weight over here, hard to
breathe
And she just says, boy you're so over the top
And you just need to stop
I'll stop when I'll get my second shot, baby
Cause I miss you so bad, I just miss you so bad
Best thing I ever had and I want it back
The love that we shared, the love we still have
Can we just go back?

My baby don't call no more
Don't call no more
My baby don't call no more, don't call me no more
No she don't but I keep calling her
And my baby won't see me no more, won't see me no
more
No she won't, I keep seeing her, I keep seeing her, I
keep seeing her
Everywhere I go, I keep seeing her, I keep seeing her,
Everywhere I go

Baby please just answer your phone
Cause 6 times I know that you're home
Can't stand the thought of being alone, whoa, alone

My baby don't call no more
Don't call no more
My baby don't call no more, don't call me no more
No she don't but I keep calling her
And my baby won't see me no more, won't see me no
more
No she won't, I keep seeing her, I keep seeing her, I
keep seeing her
Everywhere I go, I keep seeing her, I keep seeing her,
Everywhere I go.
