"Alpha and Omega"

Visit "[Alpha and Omega](#)" on MotoLyrics.com

Into my life walked an angel
Up to my lips came her own
Then out of night stepped a stranger
One look and my angel was gone.

Chorus:

Alpha and omega,
The beginning and the end
The first time I've ever found true love
And I'll never find true love again.

All through the town I've been walking
But no one has seen her go past
They say that I'm chasing a memory
My first love affair and my last.

Chorus:

Alpha and omega,
The beginning and the end
The first time I've ever found true love
And I'll never find true love again.

No, I'll never find true love again...
