

Waylon Jennings "California Sunshine"

Visit "[California Sunshine](#)" on [MotoLyrics.com](#)

Go west, young man, the signs all seem to say
There's San Diego Frisco or L.A.
Leave that cold, cold woman far behind
Warm yourself in that California sunshine

Go west, young man, become a movie star
Or anything except the fool you are
Expose the lonely corners of your mind
To a little dad of that California sunshine

I need a change, I've headed up to here
She's just playing game that's very clear
But her play mate will soon be hard to find
'Cause I'll be in that California sunshine

They say those California girls are fine
They know how to really walk your mind
Well, one of you get ready 'cause you're mine
I'm headin' for that California sunshine

I need a change, I've headed up to here
She's just playing game that's very clear
But her play mate will soon be hard to find
'Cause I'll be in that California sunshine
Baby, I'll be in that California sunshine
