Take back the weed, take back the cocaine baby  
Take back the pills, take back the whiskey too  
I don't need 'em now, your love was all I was after  
I'll make it by, I can get off on you

I can get by on little or nothing at all  
I can get high baby, just thinkin' about your good lovin'  
Well, it's true

Take back the weed, take back the cocaine baby  
Take back the pills, take back the whiskey too  
I don't need 'em now, your love was all I was after  
I'll make it by, I can get off on you

Who'd ever thought that this is somethin' I'd ever do  
Spendin' my time baby just mellowing out on you  
And your good love baby

Take back the weed, take back the cocaine baby  
Take back the pills, take back the whiskey too  
I don't need 'em now, your love was all I was after  
I'll make it by, I can get off on you

Take back the weed, take back the cocaine baby  
Take back the pills, take back the whiskey too  
I don't need 'em now, your love was all I was after,  
babe  
I'll make it by, I can get off on you
