You want me to say I love you too  
There's nothing in the world I'd rather do  
You will never know how hard I've tried  
But I can't change the way I feel inside.

It's nothing that you did or haven't done  
Who knows what makes somebody love someone  
I wish that's the way that we could be  
But love is up to love and not to me.

I can't help the way that I don't feel  
Take what isn't there and make it real  
You're where I should be going but my heart is at the  
wheel  
And I can't help the way that I don't feel.

It's nothing that you did or haven't done  
Who knows what makes somebody love someone  
I wish that's the way that we could be  
But love is up to love and not to me.
