When I was loving you I gave all I had to give
You took the love I gave and took my will to live
Didn't want me then, baby, what you wantin' now
Hear you talkin' but just keep walkin', it's all over now

Wish you could see girl, this is just how it could be
If you kept walking way you did all over me
You might been kinder, I can see it all somehow
I hear you talkin' but just keep walkin', it's all over now

How does it feel, girl, to be on the other side?
Drop down to your knees, sneak out of your pride
You should remember how you kept me there so long
Hear you talkin' but just keep walkin', it's all over now

Maybe the next one will be what you're looking for
Maybe you can give him all he needs and more
Give him all what I needed, I don't need it now
Hear you talkin' but just keep walkin', it's all over now
