You are my children, my gifts to the world  
You are the lights of my life  
You all have your good hearts, you have your own  
strength  
So I know you'll all do alright

As I look to the future from this day in time  
The truth is, I don't have a clue  
There are modern day wonders I don't understand  
So I'll leave that all up to you

But if you wanna learn how to dance  
Just watch your mama and me

Just a good ole boy and his lady  
Nothing too fancy to see  
If you want to be happy  
Just watch your mama and me

There are so many changes, changing too fast  
Things I know nothing about  
But somethings remain, just stay the same  
And that's where I might help you out

So if you wanna learn how to dance  
Just watch your mama and me

Just a good ole boy and his lady  
Nothing too fancy to see  
If you want to be happy  
Just watch your mama and me
