

Waylon Jennings "Most Sensible Thing"

Visit "[Most Sensible Thing](#)" on MotoLyrics.com

I've taken chances on everything in my life
Even against all the odds, I've rolled the dice
Count me in on any deal that comes around
Right or wrong, never slowed me down

I've always loved you silent but strong
Deep down in your heart you've always known
It's just that I've made more mistakes than any man
under the sun
You're the only sensible thing I've ever done

Never complaining back when the times were bad
Even when your faith in me was all we had
Loving me wasn't worth the price you paid
Darling, I've been wrong this is all I can say

I've always loved you silent but strong
Deep down in your heart you've always known
It's just that I've made more mistakes than any man
under the sun
You're the only sensible thing I've ever done

You're the only sensible thing I've ever done
