

Waylon Jennings "Nowhere Road"

Visit "[Nowhere Road](#)" on MotoLyrics.com

There's a road in Oklahoma
Straighter than a preacher, longer than a memory
And it goes forever onward
It's been a good teacher for a lot of country boys like
me

I push that load from here to someday
I'll push as long as I'm alive, but I don't know how long
I'll last
'Cause it's just a road, it ain't no highway
Blowin' by the double five, I know I'm goin' way too fast

I've been down this road just searchin' for the end
And it don't go nowhere, it just brings you back again
Leaves you lonely and cold, standin' on the shoulder
But you've come too far to go back home
So you're walkin' on a nowhere road

Some folks say, if you keep rollin'
And keep it on the yellow line, it'll take you to the big
highway
But there's a toll to pay, so if you're goin'
The keeper of the gate is blind so you better be
prepared to pay

I've been down this road just searchin' for the end
And it don't go nowhere, it just brings you back again
Leaves you lonely and cold, standin' on the shoulder
But you've come too far to go back home
So you're walkin' on a nowhere road
