When loneliness is knocking at my mind happiness is
something I can't find
Pleasure seem forty miles behind she comes running
[guitar]
If I stand in someone else's rain feelin' forty million
miles of pain
She know just what and who's to blame she comes
running
[guitar]
If my dreams all turn to seas if my flowers turn to
breeze
She knows exactly what I need she comes running
[guitar]
On the day the world puts me down in some empty
space in the ground
I'll bet if I make a sound she'll come running
