(Nickey Jaco)

Well, now I can see

You're dancin' every dance with her

And it seems to me

You're dancin' much too close to her.

When you sat at our table

You sat next to her

But I know that it's true

She loves me, she don't love you.

Well, let me tell you friend I'm wise to your lies

Even tellin' me that I'm the guy for her

And if a little thing you do and say

Has given you away you're in love with her.

Well, just one more dance with her

And friend you're gonna see

Oh, what it's like to hit the floor

And do a little dance with me.

Here's your coat there's the door

I think you better leave

'Cause I just know that it's true

She loves me, she don't love you.

--- Instrumental ---

Well let me tell you friend I'm wise to your lies

Even tellin' me that I'm the guy for her

And if a little thing you do and say

Has given you away you're in love with her...
