Well now I can see you're dancin' every dance with her  
And it seems to me you're dancin' much too close to  
her  
When you sat at our table you sat next to her  
But I know that it's true she loves me she don't love you

Well let me tell you friend I'm wise to your lies  
Even tellin' me that I'm the guy for her  
And if a little thing you do and say has given you away  
you're in love with her  
Well just one more dance with her and friend you're  
gonna see  
Oh what it's like to hit the floor and do a little dance  
with me  
Here's your coat there's the door I think you better  
leave  
Cause I just know that it's true she loves me she don't  
love you  
[ guitar ]  
Well let me tell you friend...
