I'll play the tambourine
Follow the sun
I'll never let you down
In these new changing times

You're going places
In these new changing times
Making your mark in this world
Is a long straight line

You need someone to go
To go along with you
To love you and help you
And to do what you'll wanna do

I'll play the tambourine
Follow the sun
I'll never let you down
In these new changing times

You have all your dreams
In these new changing times
If they seem out of reach
Just keep this thought in mind

You need someone to go
To go along with you
To love you and help you
And to do what you'll wanna do
