(Bob McDill)

Whatever gets you through the night  
Whatever makes everything all right  
I'm not the kind to judge you  
See what you do is all right with me  
Whatever gets you through the night.

Well, some guys just don't care  
They say play all nights and sleep all day  
Then some work till the day they die  
Some get rich and some get by.

Some spend the lifetime having fun  
Some say they're gonna wait till Jesus comes  
Some say that girls are their downfall  
Some boys don't like girls at all  
Whatever gets you through the night.

Well, some like cars and fancy clothes  
Some live fast and some live slow  
Some spend their life searchin' for truth  
Some come to church in a three piece suit.

Well, I heard a good woman's all you need  
I heard some guys need two or three  
Some want to save the world I'm told  
Some just want to rock'n roll  
Whatever gets you through the night.

Whatever gets you through the night  
Whatever makes everything all right  
I'm not the kind to judge you  
See what you do is all right with me  
Whatever gets you through the night...
