I fuck every god damn celebrated day
But she minds Inso much that no one and nothing's so
important
Than X-mass day!
She doesn't want to listen what I've planned in my mind
Well I can't wait any longer like that!
All I want is something more carnal!
What d'ya think about the table!
Come and try!
Unforgettable's fire consuming my veins!
She likes X-mass day!
She likes X-mass day!
I've tried, yes I've tried to make her see reason
But in vain she wants to be pure!
She said it's a cure!
Holy Day!
High spiritual level or other fuckin'crap
She likes holy X-mass
What a day, what a day
But not a fuckin' day
Inside I hear a rumble shattering my mind!
And more! more! more! more!
Hello are you still there honey on the line?
I wonder why you look for complication
It's an easy situation you and I inside
That vibration we'll fly out of that world!
"Oh no no no"
She said "I do not want disgrace this holy day
Doing such a shame full thing on x-mass day"
I think I'm going mad
