Did I hear you
Whisper my name?
Did you say that
You wanted me back again?
Did I recall
All the things you said
How you confused me
And messed with my head

Bridge
Well I
Dont need you to light up my life
I dont need you keep me alive

Chorus
Aint it funny how you think you can return to me
Make me forget what you did to me
Make me believe that you really love me
Aint it funny
How you can lie so easily
How you think that I believe you
And I need your love to breathe
You got it WRONG!

Did I see you
Walkin by
Did I see that
Look In your eye
Did I think of all the times we shared
You said you loved me
But never cared Bridge Chorus to fade
