Congratulations!
When I wake up in the morning,
Look myself in the mirror
I say: Congratulations!
I throw some money in the air
Cause I lived to see another day!
Congratulations!
Cause we made it, we made it!
And everybody is all right!
Congratulations!
We fail it, we fail it,
We're toasting to the good life!
Congratulations!

Ah, shit! Momma look, I did it!
I made it to the top, when ain't nobody fucking with it,
Bottom's up, mother fucker!
Champagne glasses,
It's a fucking invasion, you bastards!

Chorus:
Congratulations!
When I wake up in the morning,
Look myself in the mirror
I say: Congratulations!
I throw some money in the air
Cause I lived to see another day!
Congratulations!
Cause we made it, we made it!
And everybody is all right!
Congratulations!
We fail it, we fail it,
We're toasting to the good life!
Congratulations!
