Never thought it would hurt so much
Never thought that you would slip on me
Never thought I would lose your touch
Never thought that you would say those things
Never thought that you would ever turn your back on
everything now we both built

I say
You don't give a damn at all
And say
About my career at all
By saying
I'm ready to close that door
You don't need me no more
Never thought I'd see the day you'd turn away from us
And I don't know why you changed
But baby I'ma do me

Girl I know it's been a while, but baby, I'ma do me
Stop chasing you all around, girl, I'ma do me
And no more phone conversations
No lovely relations
Baby girl, baby girl, baby girl, you see
Girl, I'ma do me
Girl, I'ma do me
Girl, I'ma do me

And I don't know why you changed
But baby, I'ma do me

And all the stories the same
When you say I'm to blame
For what?
Leaving you coldhearted
Girl, that's a lie
Ooh, you know I tried
I was the only one you had
Thought you was by my side

Never thought I'd see the day you'd go betray our trust
Why you gotta go and do me like that?

Why you gotta go and do me like that? (Uh huh)
Never thought I'd see the day you'd turn away from us
And I don't know why you changed
But baby, I'ma do me

Girl I know it's been a while, but baby, I'ma do me
Stop chasing you all around, girl, I'ma do me
And no more phone conversations
No lovely relations
Baby girl, baby girl, baby girl, you see
Girl, I'ma do me
Girl, I'ma do me
Girl, I'ma do me

And I don't know why you changed
But baby, I'ma do me

Girl, I know it's been crazy (Cause you been flippin' out
on me, girl)
And girl, you wanna stay with me
So girl, won't you stay here with me?
(Nevermind)
Oh baby, ___ you can go
Pack your bags, get on the road
I don't wanna see your face
I'm through with you, baby
Oh, girl, yeahhh...

Girl I know it's been a while, but baby, I'ma do me
Stop chasing you all around, girl, I'ma do me
And no more phone conversations
No lovely relations
Baby girl, baby girl, baby girl, you see
Girl, I'ma do me
Girl, I'ma do me
Girl, I'ma do me

And I don't know why you changed
But baby, I'ma do me
