"Girls Kiss Girls"

[Chorus: x4]

I like when girls kiss girls

[Verse 1:]

Ya'll know it's hot to me  
When she tongue-tied can't talk to me  
Not with her man not with the band  
With the best girlfriend and the shit ain't planned  
Undripped, unpredicted  
Who would they thought they both be different  
They lifted too much liquid  
Why not risk it shit get addicted it  
You could say you was drunk  
Walk out that scope and the base line jump  
Let that go feel my flow  
When shit drop jump off it's real I know  
Everybody watch when we out in public  
I think it's awesome everybody loves it  
Do you it can't be forced  
Let nature take it's course

[Chorus: x2]

I like when girls kiss girls

{Late at night}

I like when girls kiss girls

{Ya dam right}

[Verse 2:]

She's sexy I ain't mad  
Ya'll tryin' to impress me I find that rad  
But I got Lexy girl I'm bad  
That if she let's me I don't grab  
And uh not to brag but I'll knock your socks off  
I'll probably glad to make your 3-way pop off  
They got me hype, got me ripe  
Got me like...  
Let's dip and sees the life  
So corny a little and a freeze in my mic  
There my kind of girls why be shy

Let's be? in 99'  
Ya'll act out what she think about  
So we all smile when she all pouts  
I scout by telling no doubt  
Make ladies kiss scream and shout

[Chorus x2]

[Verse 3:]

The club where they tips, till she all strips  
The clubs where they dance got nowhere to sit  
You drink from France with that lip-lockin'  
Let her romance we can't quit jockin'  
Out in Lala to NYC  
And over seas, P.I.M.P's  
Go ride with me, and every last disco  
Pittsburgh Slim you know how this go

Don't stop do it again  
Do it for real girl don't pretend  
Now don't stop do it again  
Do it for real girl you and your friend  
Now let me see {that's right} let me see {that's right}  
Let me see {that's right} let me see {that's right}  
Let me see {that's right} let me see {that's right}  
Let me see {THAT'S RIGHT} let me see {THAT'S  
RIGHT}

[Chorus x4: Girls kiss girls background]

[Chorus: x2]

I like when girls kiss girls  
{Late at night}  
I like when girls kiss girls  
{Ya damn right}

I like when girls kiss girls
