"Lord Take My Pain"

Last night I dreamed about you
That you came home to me
Never more to roam dear
And I was so happy and then I cried
When I woke and found you gone lord take my pain
My hearts been broke too long

Ever sense you left me
I can't control my tears
You said that you were mine to stay but you quit lovin
me dear
And now it's time
I layed awake till dawn lord take my pain

My hearts been broke too long

I hope your heart stays happy
And that your soul stays free
But if you ever need a friend
You can always count on me good bye till then
It's time to travel on lord take my pain
My hearts been broke too long
