everybody says that i'm getting older
i can't stop aging, it's on my shoulders
to get sober every time i see the state i'm in
so what's so strange, i'm only human
oh god help us, we're only human (x2)
on this summer's night i'm glad to be alive
everybody says it's time to live my life
it's a state of mind but it feels just right
i get reborn as the night moves on
oh god help us, we're only human (x2)
you waste your time working 9 to 5
you play along, you can't decide
you know what's wrong, you feel what's right
you toss and turn, you can't sleep at night
satellite up high, flying through the sky
i spy i spy with my little eye
wave the truth goodbye believe your lies are they
watching me, ccctv
oh god help us.....
my DNA is not for sale.....
