"Never Mind The Strangers"

Visit "[Never Mind The Strangers](#)" on MotoLyrics.com

It takes two to get together
It takes time to make it last
Sure we'll all end up in some ways
Like the drink in last nights glass
But we take this chance together
Lets not think about the end
Never mind the Strangers
Cause I'll always be your friend
Until the end
We've crossed the seas together
And we've had our ups and downs
We've gone further than we ever dreamed
From our County Galway Town
Well if we're up on top tomorrow,
Or if it all just ends
Never mind the strangers
Cause I'll always be your friend
Until the end
Oh it hasn't all been easy but sure
That's the way it goes
Been shaken Rocked and Rattled

Taken Jabs and body blows
But there's a strength in being together
Like a steel bar that won't bend
Never mind the strangers
Cause I'll always be your friend
Until the end
Even now it's hard to think back,
When did it all begin?
Was it some night drinking in Gaye Brown's pub
Every soul is welcome in
On this fine summer's evening
As the blue of night descends
Never mind the Strangers
Cause I'll always be your friend
Until the end
We've seen the other side of life
And not been too impressed
It doesn't beat a day at home
If you put it to the test
But at least we took the challenge
We didn't just pretend
Never mind the strangers
Cause I'll always, always be your friend
Until the end
