Factory house outside the town
Pretty name I can't remember
Christmas party '77
Heart beat like an earthy tremor
(Forever and ever)

First love stays with you forever
(Forever and ever)
First love stays with you forever
(And ever and ever)
Heart beat like an earthy tremor
(Forever and ever)
First love stays with you forever - ever

On the way to school I tried to meet you
Your father used to drop you off
You'd step out of a red Cortina
You looked so pretty on those winter mornings
(Forever)

First love stays with you forever
(Forever and ever)
First love stays with you forever
(And ever and ever)
You looked so pretty on those winter mornings
(Forever and ever)
First love stays with you forever - ever

Close your eyes for just a moment
(Sha-lalalalalala)
Disco at the start of summer(sha)
Sun still shining through the window(sha)
And you were just about to blossom(for ever and ever)

First love stays with you forever
(Forever and ever)
First love stays with you forever
(And ever and ever)
You were just about to blossom
(Forever and ever)
First love stays with you forever - ever
