And if you're higher that the mountains
You feel it in your veins
You feel the music takes you higher
Till you have reached the sky

Listen to the music, move to the beat
Jump around and feel the heat
So DJ, play the music loud
To the whole world dancing crowd
No matter wher you live, no matter where you are
On the dancefloor
Once a night time, twice a day
Get the rhythm, and you are OK
You know the music, you know the scene
Feel the rhythm like a dancing machine
Cool this groove, forget the frustrateness
Rising up to a fascination
Forget the problems, forget the stress
Everybody needs a little success
Feel the power, feel the heat
And get up on your feet !

You feel the music takes you higher
Till you have reached the sky
You feel the music takes you higher
Till you have reached the sky
And if you're higher that the mountains
You feel it in your veins
You feel the music takes you higher
Till you have reached the sky

You're gonna move, you're gonna sweat
Dominate, you'll never regret
Cause the music keeps the world in motion,
Everybody, in a deep devotion
Get up now, illusions
Join the mass without confusion
Turn to the left, turn to the right
Feel it better, side by side
It's party time, since music exist
All the people try to resist

But now it's time to come fast
And everybody love consciousness
Hand in hand you're satisfied
And deep inside you're really proud
Feel the power, feel the heat
And get up on your feet !
