Try to be .. It's no breakthrough - two wrongs does'nt
make a right
Feel, try to peel, try to scratch out your insides - two
wrongs does'nt make a right

Chorus:
You're no saint
Doors are closing now
This is what you've got
Fall up, rise...
You're no saint
No bright light to find
Are you high enough?
Fall up, rise down

Pride,.. two times.. try to keep up ! - third time is a god
damn charm
Pain, have rained. And it've brought you to this lane,
but it's love that will dig your grave

You're no saint
Doors are closing now
This is what you've got
Fall up, rise...
You're no saint
No bright light to find
Are you high enough?
Fall up, rise down
