If I hold you close, would you stay with me?
but what nobody knows you're only fantasy
step up step down, why don't you turn it around
tell the story to town?

You're fading, falling away from me, and can't you see
that
memories don't last forever
We're facing, all of our biggest fears, this is the day
to turn our backs and say whatever

Can you see me now, as i'm standing here?
would you cry somehow, or maybe cheer?
This is our story, our way to glory
Our way to glory

You're fading, falling away from me, and can't you see
that
memories don't last forever
We're facing, all of our biggest fears, this is the day
to turn our backs and say whatever

Your fading....
