Would you like that?  
Do you like that?  
I know you like that!

Starin' at me all night while im out the floor  
It was clear what chu wanted so ya pushed  
up on it I was grindin' with the dj with my  
hands on the floor I guess you couldnt take  
it you got tired of waitin'

So you walked over to me breathin' in my ear  
talkin' bout what could be sayin' you can do  
this and that then you start workin' me like  
a champ and im like

Oh your touchin my body Oh you must want me  
to get started boy i cant take it its so crazy how  
your making me feel Oh your touchin my body  
Oh you must want me to get started boy i cant  
take it its so crazy how your making me feel

If i put you on (would you like that)  
Keep it nice and warm (do you like that)  
Do it on the floor (do you like that)  
I wanna give you some more (i know you like that)

Now you got me sweatin' dancin' outta my  
clothes I was headin' for the door but cha  
made it so i had to know Just what cha was  
cha was workin' with I put it out there told  
you come get it now im the one that cant  
handle it the way your workin' me out on  
the floor

So you walked over to me breathin' in my ear  
talkin' bout what could be sayin' you can do  
this and that then you start workin' me like  
a champ and im like

Oh your touchin my body Oh you must want me  
to get started boy i cant take it its so crazy how

your making me feel Oh your touchin my body  
Oh you must want me to get started boy i cant  
take it its so crazy how your making me feel

If i put you on (would you like that)  
Keep it nice and warm (do you like that)  
Do it on the floor (do you like that)  
I wanna give you some more (i know you like that)

When ya touchin' me right there step back and  
catch my breath this way I never felt you do  
that thing so well, well

Oh your touchin my body Oh you must want me  
to get started boy i cant take it its so crazy how  
your making me feel Oh your touchin my body  
Oh you must want me to get started boy i cant  
take it its so crazy how your making me feel
