Shit do happens you know
It happened to me, so why this couldn't happen to you
Ooooo, check this

Chorus
Tings aint going so right
Just another day in my life
I was blinded by the sight
When she walked out of my life
Tings aint going so right
Just another day in my life
Didn't wanna let her go
Wanted her to be my wife

Verse 1
I was so in love with you
Saw things from your point of view
Tried really hard to make things right
Just to hold you for one more night
Took life one day at a time
Things were going oh so fine
Didn't see my troubles coming on
Even when you're long gone

Coulda told me there was another man, oh
I just can't understand, oh oh oh

Chorus
Tings aint going so right
Just another day in my life
I was blinded by the sight
When she walked out of my life
Tings aint going so right
Just another day in my life
Didn't wanna let her go
Wanted her to be my wife

Verse 2
Can't believe it's the end
We were more than just friends
I was hired and I

Didn't watch my lover's supply
I was too blind to see
There was more than just me
Even when your touch was cold
Our love still would unfold

Coulda told me there was another man, oh
I still can't understand, oh oh oh

Chorus

Tings aint going so right
Just another day in my life
I was blinded by the sight, baby
When she walked out of my life
Tings aint going so right
Just another day in my life
Didn't wanna let her go
Wanted her to be my wife

I was so in love with you
Saw things from your point of view
Tried really hard to make things right
Just to hold you for one more night
Took life one day at a time
Things were going oh so fine
Didn't see my troubles coming on
Even when you're long gone

Coulda told me there was another man, oh
I still can't understand, oh oh oh

Chorus

Tings aint going so right
Just another day in my life
I was blinded by the sight, baby
When she walked out of my life
Tings aint going so right
Just another day in my life
Didn't wanna let her go
Wanted her to be my wife
