Staring at me all night while im out on the floor
It was clear what you wanted
So you pushed up on it

I was grinding with the DJ with my hand on the floor
I guess you couldnt take
And got tired of waiting

*So you walked over to me
Breathing in my ear talking 'bout what could be
Saying you can do this and that then you start working
me like a champ*

And im like
Oh-your touching my body
Oh- you just want me to get started
Boy i cant take it, its so crazy how your making me feel

*If i put you on- would you like that?
Keep it nice and warm-do you like that?
Do it on the floor- do you like that?
I wanna give some more- i know you like that*

Now you got me sweating dancing out of my clothes
I was heading for the door
But you made it so i had to know

*Just what you was working with
You put it out there, told me come get it
Now im the one who can handle it
The way you're working me out on the floor*

*So you walked over to me
Breathing in my ear talking 'bout what could be
Saying you can do this and that then you start working
me like a champ*

And im like
Oh-your touching my body
Oh- you just want me to get started
Boy i cant take it, its so crazy how your making me feel

Oh-your touching my body
Oh- you just want me to get started
Boy i cant take it, its so crazy how your making me feel

*If i put you on- would you like that?
Keep it nice and warm-do you like that?
Do it on the floor- do you like that?
I wanna give some more- i know you like that*

*When your touching me like that
Step back and catch my breath
This way i never felt
You do that thing so well, well*

Oh-your touching my body
Oh- you just want me to get started
Boy i cant take it, its so crazy how your making me feel
Oh-your touching my body
Oh- you just want me to get started
Boy i cant take it, its so crazy how your making me feel
