Below these planetarium skies
I run towards you
The horizontal bungee pulls me back
Though I adore you

They say that we will never know it
Unless we surrender to it
There are signs everywhere
Telling me that planet Earth is just one big trip

Held hostage in a dream
Following a shadow of a shadow
Held hostage in a dream
Following a shadow of a shadow

Have I ever truly loved?
Does the rain and sun sprout seeds of stealth?
I'm waiting patiently for the day
When I let the world turn by itself

Till the moment when I'm dancing like no one's
watching
Please don't depend on me
I see it differently
But I'm always grateful when another soul believes in
me

Held hostage in a dream
Following a shadow of a shadow
Held hostage in a dream
Following a shadow of a shadow

Held hostage in a dream
Following a shadow of a shadow
Held hostage in a dream
Following a shadow of a shadow

Held hostage in a dream
Following a shadow of a shadow
Held hostage in a dream
Following a shadow of a shadow
