"Wonder"

Visit "[Wonder](#)" on MotoLyrics.com

Did you see the setting sun?
It turned it's face today
So you wished upon the stars
That fell so rapidly

And did you ever wonder
Why the world you know
Can knock you down
Time after times with deadly blows?
I don't know
I don't wanna know

Did you see the tidal wave?
It took me by surprise
It only followed the full moon
And all it's hidden lies

And did you ever wonder
Why the world you know
Can knock you down
Time after times with deadly blows?
I don't know
I don't wanna know

Did you feel the world turn?
Things won't be the same
So you have to live your life
And take it day by day by day

And did you ever wonder
Why the world you know
Can knock you down
Time after times with deadly blows?
I don't know
I don't wanna know

No oh...no...no
