love rain down on me
on me down on me 4x
met him on a thursday
sunny after
noon cumulus clouds 84 degrees
he was brown deep
said he wanted i
to talk about my mission
listen to my
past lives word
took me on long
walks to places where butterflies rest ez
talked about mooses and mumia repa
rations blue colors memories of shell
top adidas
he was fresh like summer
peaches
sweet on my mind like block
parties and penny candy
us was nice
and warm

no jacket no umbrella

just warm

at night we would watch

the stars and he would physically give

me each and every one

i felt like

cayenne peppa

red hot spicy

i felt

dizzy and sonya heaven and miles

between my thighs

better than love

we made delicious

he me had

had me he

he had me tongue tied

i could hear his rhythm in my thoughts

i was his sharp his horn section his

boom and his dip

and he was my

love

love rain down on me

on me down on me

the rain was fallin' and and slowly and

and sweetly and stinging my eyes and i

could not see that he became my
voodoo priest
and i was his faithful
concubine
wide open wide loose like
bowels after collard greens
the mis
take was made
love slipped from my
lips dripped down my chin and landed
in his lap and us became new
now
me non clairvoyant and in love
made the coochie ez and the obvious
invisible
the rain was fall in' and i
could not see the season changing and
the vibe slipping off it's axis
our
beautiful melody became wildly stac
cato
the
rain
was
fall in'
and

i

could

not

see

that

i

was

to

be

plowed

and

sewn

and

fer ti lized

and

left

to

drown

in his sunny afternoon cumulus

clouds 84 degree melody

love rain down on me

on me down on me 2x

wide open wide loose the mistake

was made love slipped from my lips

and dripped down my chin and land

ed in his lap and us became new me
not clairvoyant and in love made me
the fool
you were never true
if you
didn't want me aw you should have
let me know
all you did was make a
mockery of somethin' so incredible
beautiful
i honestly did love you so
love rain down on me
on me down on me 4x
