no hay nadie mas que yo uno es el numero magico

en vida y en muerte uno es todo comprende

if i multiply 2 times 2 is it really really 4 me la 6x

and if i add 5 to get 9 minus 8 that just leaves me me
8x

so many times i define my pride through somebody
else's eyes la da da la da

then i looked inside and found my own stride i found
the lasting love for me

if i'm searching for my spirituality passionately i must
begin with me

there's just me one is the magic number 2x

if i add myself unto myself multiplied times you and
yours and you again

there's just me

and if i divide 8 billion 48 trillion 98 zillion

there is there is just me

if i subtract one plus me to the 5th degree use any
theorem

there's just me

there's just me one is the magic number 2x

me me me me

ad lib until end
