I can feel your fingers when I close my eyes  
Take your poison, look inside  
I fall into dreaming  
I've been waiting for your touch to bring me home  
Sleeping, death will come and leave me out of the  
sunlight

Shadows pulling me along with you  
When the moonlight sings  
The darkness brings me back to die with you  
I've given all my life to be with you  
My heart is waiting and breaking to return to burn with  
you tonight

Hating all I am when lying by your side  
Taking everything of me  
Do people mean nothing?

I hold secrets only dreaming eyes can see  
Night time sent you ??  
??

Shadows pulling me along with you  
When the moonlight sings  
The darkness brings me back to die with you

I've given all my life to be with you  
My heart is waiting and breaking to return to burn with  
you tonight

Lay down your night  
Holy for you

Forsake the night  
All I see is you

For every night  
Live just to die for you

Shadows pulling me along with you  
When the moonlight sings  
The darkness brings me back to die with you

I've given all my life to be with you  
My heart is waiting and breaking to return to burn with  
you tonight
