shattered  
inside your mind  
through your dreams  
the emptiness of death  
still survives  
wash away the thoughts you hold  
possession of the mind  
once again you fail me

sacred is the mind you once had  
the nights begin  
again you sin  
darkness will conquer all  
when lifeless

drown in your fears  
blindness in your eyes  
only sin will survive

sacred is the mind you once had  
the nights begin  
again you sin  
darkness will conquer all  
when lifeless

your alone, but fear got you there  
and if you choose to die  
i will let you fall  
and all shall inhale the light  
as everyone around us burns  
we burn

sacred is the mind you once had  
the nights begin  
again you sin  
darkness will conquer all  
when lifeless

we have forsaken in  
darkness again  
and i will fall

i will fall

heaven sleep  
and dream of me  
mended the dark  
im falling apart

were lifeless
