You want to talk about indecision?  
Just take a look at all the Seminole lies  
We are the product, misinformation, a generation  
milked by a Columbian high

Then we could trace it to a loud salvation  
Back when eleven fell onto its side  
If we're so hopeless then why'd you mod us to be  
nothing more than soldiers with impressionable minds?  
Nation, forgive us.  
We are young but don't cast us all aside

You want to talk about revelation  
A backfire lash against the paradigm  
Yeah it was easy then, when you could scold us  
But you cannot believe that we will commit to your  
crimes

Nation, forgive us  
We are young but don't cast us  
Father forgive us we are young  
but don't make us stand in line.
