Performed by Coal Chamber)

Go son. If you get up but they strap you around.

Then just remember that i will always be there.

when i say to you daddy loves you understand.

i'm out in the real world again im trying.

raise your guard again. they dont give a damn.

dont compromise your ideas for anyone else.

respect your mom and always think of her first.

when i say to you daddy loves you

understand i'm out in the real world again and i'm trying.

raise your guard again. they dont give a damn.

Son, if the sun don't shine i'll try

like hell to make light from the dark for you.

raise your guard again. they dont give a damn. go son
