"Over And Out"

Panic and pressure are input as part of my wiring
And maybe I'm prepared for a shut down on three if
this all gets too tiring
But maybe I am too scared

It's been sweet, but I'm over and out
It's been sweet, but I'm over and out
It's been sweet, like I've told you , but really I'm over
you
See, I'm over and out

I'd finger the trigger myself if I thought it might help
me
And maybe I'm prepared , but my options right now just
don't seem very healthy
But maybe I'm just scared

It's been sweet, but I'm over and out
It's been sweet, but I'm over and out
It's been sweet, like I've told you , but really I'm over
you
See, I'm over and out

I'm trying to think, but nothing is comin'.
I'm trying to speak, but all I can say, yeah all I can say
is:

It's been sweet, but I'm over and out
It's been sweet, but I'm over and out
It's been sweet, like I've told you , but really I'm over
you
See, I'm over and out
