I know my body's not a perfect machine  
I don't know how it keeps on working with me  
'Cause if I'm going out I'm back after sunrise  
If I'm going out I'm back after sunrise  
If I'm going out I'm back after sunrise

I know my body's not a perfect machine  
I'm just surprised that it endures this routine  
'Cause if I'm going out I'm back after sunrise  
If I'm going out I'm back after sunrise  
If I'm going out I'm back after sunrise

I guess excessive is what you'd call it  
The more I'm getting the more I want it  
I shouldn't let this become a problem  
But when I'm dead I suppose I'll stop it  
But until then I want more

If I'm going out I'm back after sunrise
